

OLAYEMI MOTIN OLADIPUPO

Frontend Web Developer | Full Stack (Backend in View)

Ile-Ife, Osun State, Nigeria | 08070771733 / 08125313072

olayemimotin2021@gmail.com | linkedin.com/in/olayemi-motin-074aa535b | github.com/Horlarjnr

PROFESSIONAL SUMMARY

Entry-level Frontend Web Developer currently expanding into backend development to become a Full Stack Web Developer, while pursuing a B.Sc. in Computer Science with Mathematics. Experienced in building and deploying production-ready applications using React, Next.js, TypeScript, and Supabase, including multi-role platforms with authentication, real-time data, and Row Level Security. Proven ability to translate user research into functional, accessible interfaces, collaborate in agile team environments, and ship projects from concept to live deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js (App Router), Node.js, Express.js, Tailwind CSS

Databases & BaaS: Supabase (PostgreSQL), Row Level Security (RLS), Authentication & Storage

Tools & Testing: Git, GitHub, VS Code, Thunder Client, Postman, Docker, WSL 2

PROJECTS

EventEase — Event Planning & Booking Platform

React, TypeScript, Vite, Tailwind CSS, Supabase (Postgres, Auth, Storage), Vercel

- Developed a full-stack event management application streamlining venue and caterer discovery, booking, and vendor management into a unified workflow.
- Built a multi-role authorization system supporting Customers (search and unified booking), Vendors (listing and availability management), and Admins (platform oversight).
- Designed relational database schemas, authentication flows, and media storage pipelines using Supabase.
- Deployed a responsive, production-ready frontend on Vercel.

Study Circle — Peer-to-Peer Knowledge Base

React, JavaScript, HTML5, CSS3, Markdown, Git/GitHub

- Co-developed a frontend knowledge-sharing application to aggregate fellowship Q&As and make mentor-verified solutions instantly searchable.

- Analyzed user research data (100% demand for keyword search, 71% hesitation in public asking) to design user-centric features.
- Implemented structured Q&A posting, threaded comment discussions, answer upvoting, and tag-based keyword search.
- Collaborated in a team environment using Git/GitHub for pull requests, code reviews, and component integration.

GitHub: github.com/iotb-tech/study-circle | Live: study-circle-sandy.vercel.app

Taskflow-Starter

Next.js (App Router), React, TypeScript, Supabase (Postgres, Auth, RLS), Tailwind CSS, Vercel

- Engineered an interactive, multi-column Kanban board enabling real-time task management and drag-and-drop state persistence.
- Implemented user authentication and board-level data isolation using Supabase Row Level Security (RLS) policies.
- Integrated drag-and-drop mechanics with optimistic UI updates for seamless column transitions (To Do, In Progress, Done).
- Built dynamic task CRUD capabilities and deployed a production build with automated CI/CD from GitHub to Vercel.

GitHub: github.com/Horlarjnr/taskflow-starter | Live: taskflow-starter-gilt.vercel.app

User Management System & Admin Dashboard

Semantic HTML5, Tailwind CSS, JavaScript (ES6+), LocalStorage

- Built a client-side user administration platform with persistent data management, role-based controls, and dashboard analytics.
- Implemented full CRUD user management, authentication flows, and real-time search/filter backed by LocalStorage persistence.
- Designed an accessible, mobile-first dashboard with dark/light mode toggling and dynamic reporting metrics.

WORK EXPERIENCE

Web Development Fellow — IOTB TECH Fellowship

May 2026 – Present

- Collaborate in an agile team environment to design and ship production features.
- Conducted user research and survey data analysis to design and build Study Circle, an interactive Q&A knowledge base.
- Developed mobile-first, responsive landing pages adhering to strict design specifications using HTML5, CSS3, and Tailwind CSS.

- Industrial Training (IT) — Ogun TechHub, Abeokuta**

October 2023 – March 2024

 - Participated in hands-on technical workshops, code reviews, and software design training sessions to build industry-standard developer workflows.
- IT Assistant & Customer Support — Estabkel Venture**

2020 – 2021

 - Attended to daily customer inquiries, provided direct technical assistance, and resolved service-related issues to ensure high client satisfaction.
 - Handled client communications, administrative data entry, and record management while assisting with overall IT setup and support.

EDUCATION

- B.Sc. Computer Science with Mathematics — Obafemi Awolowo University, Ile-Ife**

Expected 2028

Relevant Coursework: Human-Computer Interaction, Artificial Intelligence, Database Systems, Web Development
- Ordinary National Diploma (OND) — Federal School of Statistics**

2021

CERTIFICATIONS & TRAINING

- Web Development Fellowship Certificate — IOTB TECH Fellowship (in view)
- SheTrades Digital Learning Programme — Certificate of Achievement (September 2026)

LEADERSHIP & VOLUNTEER EXPERIENCE

- Protocol Team Group Leader — CSCON 4.0 (Computer Science Conference)**

August 2025

 - Led and coordinated the protocol team to manage event logistics, guest relations, and seating arrangements for conference speakers and attendees.
- Welfare Committee Member — Economics Summit, Obafemi Awolowo University**

May 2026

 - Managed attendee hospitality, venue arrangements, and logistics support to deliver a seamless event experience for delegates and speakers.
- Welfare Committee Member & Volunteer — MSSN OAU Jihad Week**

July 2026

 - Coordinated logistics, catering, and attendee support as part of the welfare committee during annual Jihad Week activities.
